About 12th, March from South half of 16-0-10, a white gelding 7 yrs; also a bay gelding, both branded triple c, and one below 1250. The each had raw hide halters on. \$20 reward for information leading to their recovery. Oliver Eastman, Bow Island.

Among the new comers to Bow Island we are pleased to welcome Mr. and Mrs. C. G. McElroy who take over the management of the Retail Store. Mr. McElroy only recently returned from two years service overseas as Pharmacist with the Canadian Medical Corps. Although but a young man he is an old timer in the drug business, having started as a boy in Young's Drug Store at Macleod. He is a Graduate of Manitoba College of Pharmacy. We understand Mr. Blaine will continue with the business for some time. Blaine's Drug Store, or as it is now known, The Bow Island Drug and Stationery Co. is a popular store and deservedly so; it is one of the stores that has helped to make Bow Island a little better than other towns, and deserves the support of every citizen. The value of such a store has been realized by the people of this town and surrounding country during our dreadful epidemics and not many will forget Mr. Blaine's faithful service at all hours of night as well as the day.

Nurse Helchenber and nurse Johnson returned to their home in Calgary, leaving on the early Monday morning train.

Mrs. Hulbert is slowly recovering from the effects of the flu, her many friends will be pleased to see her around again.

Mr. and Mrs. A. F. Weets motored to Medicine Hat Friday returning Saturday.

Joe Lackenby returned to his home in Lethbridge Friday last. Joe has been overseas for the past three and one half years and relates some very interesting experiences.

Charley Thompson family are moving to their farm south of town.

Miss Rose Hulbert is able to be around again after her recent attack of the flu.

## Bow Island North

Mr. A. E. Adam has had the misfortune to have a nice spring colt sustain a fractured leg.

Seeding is now getting pretty general in this district and all report the land in admirable shape. Crop reports from Calgary say that 10 per cent of the Alberta wheat crop is in the ground and expect that the end of the present week 40 per cent more will be accomplished.

We hail with delight the little shoots of new grass appearing daily, and this spring we hope to see a plentiful green, which has been foreign to this sun baked prairie land for the last two years.

Nels Lemberg has the distinction of having the first wheat up this spring. His well cultivated field has already taken a greenish hue. How's that for push, boys, it looks good for a bumper crop?

The Hamilton Bros. have seeded over 50 acres and hope to get through in good time so that they will be able to pull out for their horse ranch, situated on Bow River south of Brooks for the summer.

Teachers and school children have enjoyed their holiday and beautiful weather for Easter, thanksgiving services such as would liked to have been held, have been somewhat curtailed by the prevailing sickness.

Rev. Heston and party and Mr. and Mrs. Peterson of Grand View Farm, were visiting Mrs. B. Thompson during the week.

Miss Clara Defew who has been in Spokane for some time, has arrived home.

Mr. and Mrs. Geo. Munde who have been suffering with the flu we are glad to hear have quite recovered.

John Jacobson has started plowing on the section rented to him by Mr. Chas. Thompson north of Winnifred.

Mr. Kingsley Holcroft has, we hear, rented to Egan Bros. his farm and is settling holding comprising a section of wheat land, a full line of machinery and horses. Mr. Holcroft is at present in Calgary.

We regret that Mrs. A. E. Adam has just received the sad news of the death of her father in North Dakota.

## Card of Thanks.

We beg to extend our heartfelt thanks to all friends and neighbours who so kindly assisted in the sickness and death of our beloved wife and mother Janie May Loucks.

Pres. Haselden, of

G. W. V. A., Blames

Gov't. for Labor

### Situation

o o o

A. Haselden, president of the local branch of the Great War Veterans Association, takes exception to the general purport of the statement made Friday by the Alberta Government Employment Bureau, regarding returned men, with agricultural experience, who were not willing to offer their services to farmers at wages ranging from \$65 to \$75 a month with board.

The president has prepared a written statement, which is printed exactly.

### No Particular Demand

"Let the citizens form a wrong idea of actual conditions in connection with soldiers not wishing to go on farms, it may be pointed out, that the labor bureau for returned soldiers is situated in the Veterans' Club, and at this particular moment there are only 15 requests for farm laborers on file in our office, and in my opinion that does not constitute a 'loud call for help'." Our employment secretary

Comrade Newton, informs me that no particular demand has been made on our office for men on farms, and it is quite probable if such a call did come a number of returned soldiers would avail themselves of the offer.

"However, it should be borne in mind that the government has brought out a land scheme, and these men who are practical farmers are awaiting action for the Soldiers' Settlement Board to permit them to farm for themselves, and it is, therefore, unlikely that they are going to enter into a man's arrangement as hired help when able to handle their own business.

### Wholly Unwarranted

"It seems to me that the remarks of the director of labor are wholly unwarranted and last night's article is misleading. It may be interesting to your readers to know that immigration propaganda is being carried out all over the United States and men are moving daily seeking land and help to work it. It would thus appear that it is the government's desire to establish American farmers on the land, and have the returned soldiers work for them. In other words, it is not intended to permit the returned soldiers to start for themselves, but rather that he should remain a servant than become a master.

### Blames Land Scheme

"As far as preferring to live on their post discharge pay is concerned,

## Economical— Because It Covers More

EVEN if this paint were sold at a price half as high again as any other—it would still be the economical paint to use on your house. Its sheer covering capacity is no equal. A gallon of it goes so far that you'll buy less of it and yet do more with it.

**B-H PAINT** "ENGLISH" 75% Pure White Lead 25% Pure Zinc 100% Pure Paint

This paint is guaranteed to possess as its important base the above formula which we inscribe on every can. The result of this formula is that you could not see its brilliancy of color and in proper "body"—a paint which gives a fine lasting finish, excelling all others in "covering capacity" and in durability. Paint with B-H "English" Paint—and your house is protected for years, where a coat of ordinary paint will last but a few months.

It's better to

**BRANDRAM-HENDERSON**  
SHEWAN TOMES & CO. LTD. LONDON

perhaps the director of labor will tell us what other sum is available for living by the returned soldiers during the period of his waiting to go on the land. The month-end remuneration of \$1.10 a day does not place the soldier inaffluence and the dilatory action of the Soldier's Settlement Board compels these soldiers to wait their pleasure, and since land schemes have been talked about from the moment of the war it cannot be wondered at that returned men are waiting to avail themselves of the opportunity if it ever comes.

Merely Camouflage  
"One of the most expressive terms now in common use in the English language is camouflage, and that is the only term which veterans can apply to the article entitled Farmers Call Wildly for Help. As a matter of fact it should have been an article entitled Government Officials Call Wildly for Help to prevent the soldiers from getting the land which has been held out to them with one hand with a strong pull-back by the other."

"Of course our farmers are needing help and nobody realizes this more than the soldiers whose the director of labor is so very anxious should hire out at such enhanced salaries. How about some of the city residents who have enjoyed home comforts for the last four or five years, being requested to go out to the farmers and vacating jobs to the soldier who is perhaps not any longer physically fit to stand the strenuous work of the farm?"

### Was No Solution

"The soldiers who are physically fit to go on farms have been trying for many months to get action from the Soldiers' Settlement Board so that they can go to farms of their own which are proposed by the government under the scheme but the director of labor now comes along with the brilliant suggestion that the soldiers should hire out to farmers on action which would only lead to the solution of the difficulties of the government and not of the men themselves. Of course the men are living on their post discharge pay while patiently waiting for the government to let land with some of the land which has been promised to them.

Should War Government  
"Does any sane person suppose the soldier was subsisting on his accumulated treasure from \$1.10 per day, which has been his remuneration for the past few years? If the director would issue a warning to his employers, the government, to get a double move on the soldier settlement board so that emigrants could get to business for themselves at once, instead of warning me that it may be necessary to import a large number

of eastern men into the province, he would exhibit the knowledge of a finger grip of the true situation than at present seems to be the case.

Added Embarrassment  
"Such an importation will not relieve the situation one jot. In fact it will but add still more to our provincial embarrassments as regards the labor situation. The mere suggestion two or three weeks ago that a new post office was to be commenced in Calgary, has been the cause of a rush to Calgary of large numbers of arizonans from 'outside points,' and these people are now with us long before the appointed time, swelling the ranks of unemployment. The result of such an article as 'Farmers call wildly for help' will have precisely the same effect, adding still further to the very situation which good administration should seek to overcome if it had at heart the stability and prosperity of the people.

### Plain as Daylight

"Where does the 'camouflage' come in? Plain as the daylight. The government has started something as to settling soldiers on the land, and present evidence indicates that it cannot fill the bill, what between the speculators, the large corporations, and a wide-open policy of immigration the best land is so tied up that it cannot deliver the goods. "Hence the idea of directors' directing a stampede of public opinion against the very men, who, more than anyone else have demonstrated their loyalty to the Empire, with the hope that such opinion will drive them on to the land as servants instead of masters, the director forgot to tell the public that the activities of officials of his own department, now operating in the States, were encouraging immigrants into the country every day who are swelling the ranks of the unemployed, causing the raising of rents in the cities with better hands than who take up hard for soldiers now returned and those still to return, to get any benefits under the soldier settlement scheme which the government is trying to persuade everybody is the last word of munificence and perfection when in reality it is simply a land grab scheme without enough land to supply the demand."

# Trial of Ex-Kaiser Not For Belgium

Paris. — The Belgian delegation at the peace conference informed the correspondent that Belgium had not been officially requested by the council of four to bring the former German emperor to trial, and that the Belgian government would feel obliged to decline to take the steps even if there were any request for such action.

The Belgian delegates hold that any action should be taken by a committee representing all the associated powers. The official Belgian view, it was said, is that the former emperor cannot be arraigned for declaring war or violating the neutrality of Belgium, or for any act preceding or coincident with the declaration of war.

After pointing out that there is no tribunal competent to hear such charges against the former emperor and no provision of international law covering such cases, the delegates said that Belgium expects that persons guilty of acts punishable under the criminal code of the belligerent powers should be placed on trial, as theft, murder and other crimes committed during the war do not relieve the criminals of responsibility.

"If the commission desires to arraign General Baron von Maximal for the sacking of Louvain, General von Schroeder, for the murder of Captain Fyatt and General von Sauerberg for the execution of Miss Edith Cavell, all the necessary documents will be forthcoming," said the general secretary of the delegation. "But Belgium does not seek revenge. It wants only justice. It would be small satisfaction to lock the Kaiser up for a few months in the Saint Gille prison and those who have reported that such revenge has been offered Belgium as a solace for her wrongs, have sadly misunderstood the Belgian character, if they thought it could be acceptable."

"The only case in which the personal responsibility of the former emperor for a criminal action committed in Belgium could be established beyond doubt, is in the atrocities attending the deportations of civilians and compelling them to do forced labor in Germany." In this case, his responsibility is unquestioned.

## Where They Belong

Over Two Hundred German Submarines at Bottom of Sea

New York. — Rear Admiral Sims, who commanded the United States fleet during its war time activities in European waters, said that he believed there were "200 German submarines at the bottom of the sea."

In a speech at the Bond club, a Victory Loan organization, he said: "The fleet found many submarines stuck on the bottom with indications showing that many of the men caught inside either committed suicide or killed each other."

## Quiet in Odessa

Athens. — There had been no disorders in Odessa since its evacuation by allied troops.

## Holland Fears Bolshevism

German Border Strengthened to Prevent Smuggling of Munitions

The Hague. — The frontier guard along the German border has again had to be strengthened because of the efforts made by Bolsheviks to smuggle arms and munitions to Holland. Ten Germans were arrested and twenty who were trying to come into the country were turned back. Every traveller who enters Holland is searched in Amsterdam. There is much interest in Amsterdam due to the demobilized soldiers, who, without a recognized trader come together daily and parade through the principal streets. While the police are engaged in trying to disband them other disorderly crowds raid shops elsewhere. Jewelry valued at hundreds of thousands of dollars has been taken from the shops and then when the storekeeper runs out to see what is happening he is caught and held by the mob while his shop is robbed. Others hastily put up their shutters when they see bands of men and boys approaching.

## Anarchy in Munich

Robbers are Looting Houses and Threatening Banks

London. — Complete anarchy reigns in Munich, according to a Copenhagen dispatch to the Exchange Telegraph. All work has ceased. Trains are not running, and robbers are looting houses and threatening the banks, the dispatch states. The first infantry regiment is said to have joined the Spartacists.

Copenhagen. — German government troops have occupied the entire town of Magdeburg, according to a Weimar dispatch to the Lokal Anzeiger of Berlin. It is reported there was hard fighting, with many casualties on both sides.

## Threaten to Use Force

Czech Forces Concentrated at Ostrova in Silesia

Warsaw. — Advice from Cincow state that Czech forces have been concentrated at Ostrova and Dabrowa in Silesia, close to the line of demarcation between Czech and Polish armies in that region which was fixed by the allied mission sent there. It is said that the Czechs have announced that they will settle the frontier question by force of arms.

A Czech detachment is said to have entered Polish territory at Litzyn, where it clashed with a Polish force, several Poles being wounded.

## Greek Canadian Trade

London. — Reuter's learns, in connection with Canadian trade developments in Europe, that a Greek commercial commission is leaving Athens at an early date for Canada to ascertain the extent to which Canadian industries supply Greek requirements and to arrange preliminaries for placing Greek orders in Canada.

## Raw Materials For Germany

May Be Allowed Before Peace Treaty Becomes Effective

Paris. — The council of four of the peace conference went into session with the question of the Adriatic again before it for consideration.

Arthur J. Balfour, British secretary for foreign affairs, took the place at the council session of Premier Lloyd George, who has gone to London.

The supreme economic council is considering the question of permitting Germany to have certain raw materials before the peace treaty becomes effective with a revision of the blockade regulations to that extent, and it is understood the prospects are good for favorable action. The economic council members are also considering a plan for the conservation of Italy's coal supplies. Belgium has been asked to name a delegate to sit on the economic commission.

## German Officers Will Demobilize

Berlin. — It is officially announced that German officers will be demobilized and will formally leave the army when the war ministry is able to lighten the economic difficulties incident to their transfer to civil life.

## Trade Outlook Bright

Market Is Opening for Sale of Canadian Products

Ottawa. — A cablegram to the Canadian trade commission in Ottawa from the Canadian mission, London, states that there is a promising outlook for the sale of Canadian products, especially of foodstuffs in Scandinavia, Denmark and Holland.

Import regulations for these countries have been undergoing considerable revision. Guarantee as to destination of imports into these countries, it is understood, must be furnished by consignees, but on this point there is little difficulty, and the supplies are for home consumption.

Considerable quantities of foodstuffs have been consigned especially to Denmark within the last month, such as wheat, flour, oils and pork products. Permits will be granted freely.

## No Russian Approaches

London. — In answer to a question from John R. Clynes, a labor leader, whether approaches for peace have been made from the Russian government, the premier said: "We have had no approaches of any sort or kind. None has been put before the conference."

# Turkey May Start Next World War

## Wants Treaty Revised

Demands Annexation of Land in Rhine Province

Paris. — The council of four took up the request of Belgium for a revision of the treaty of 1839 and Belgium's demand for the annexation of Malmedy, in the Rhine province of Prussia, southwest of Aachen-Chapelle, and Morant, a small section of No Man's Land, the disposition of which was left undecided at the Vienna conference. It lies between the Belgian province of Liege and the Prussian Rhine provinces.

Until the outbreak of the war, Morant enjoyed the unique position of being without either a government or national allegiance. Its residents served in no army, paid no taxes and had no such modern institutions as railroads, posts and telegraphs. It depended on such accommodations as were provided by adjacent countries. The only government consists of a municipal administration.

## Say Huns Must Be Punished

Resolution Signed by 5,000,000 United States Women

Paris. — Ilyerier Clemenceau received from Mrs. Charles H. Farnham, of New York, the representative of the committee for the protection of women under international law, a resolution signed by 5,000,000 United States women relating to crimes against women committed by the Germans and their allies during the war. The resolution demands that the German attack on humanity through womenkind be "infamous and sinister."

Superabundant proof exists, the resolution says, of the crimes which the armies of the central powers perpetrate against women in all the countries they invade.

Demand is made that all officers, soldiers, and civilians belonging to the armies of the central powers who perpetrated any crime against women or girls in any allied country, should be punished if possible. And that steps should be taken to prevent such outrages in the future.

Peace Treaty in Two Parts

Paris. — The peace treaty will be divided into two parts, according to the latest information in the French press. The first part will concern Germany and will include a clause by which she will pledge herself to comply with all agreements to be concluded with her former allies. The second part will not concern Germany directly and will be signed only by Austrian, Bulgarian and Turkish delegates.

## Another German Strike

Bremen. — A general strike has been proclaimed here. It is effective in most of the large works and on the railways. The gas and electric lighting systems, however, are operating.

For Dodd's Kidney Pills Have Made Him Well

A Year of Growing Kidney Trouble Brought Bright's Disease But He Found a Help in Dodd's Kidney Pills.

"Belleville, Vermont, Nov. 5. S. S. Bell (Specialist) writes: 'I want to tell everyone that it was Dodd's Kidney Pills that made me well. I was well, but I had been told of the value of Dodd's Kidney Pills. I think everybody ought to use them all the time,' he says. Then he gives the reasons for his enthusiasm."

"I first caught a cold," Mr. Meuse says. "My sleep was broken, my eyes were puffed and swollen and I had dark circles around them. I was often dizzy and always thirsty. My skin felt itchy all night. I was troubled with nervousness and my limbs were swollen."

"I had cramps in my muscles, backache and headache. Then Dr. Dodd's Kidney Pills came. A doctor advised me but the first real relief I got came from Dodd's Kidney Pills. I took eight boxes of them and they cured me."

All of Mr. Meuse's troubles came from sick kidneys. Dodd's Kidney Pills cured his kidneys and he is well all over. That's why he's enthusiastic. Dodd's Kidney Pills make pure blood and pure blood is the foundation of health."

## Coming to Canada

Rumanian Ship Has Sailed Under Recent Trade Agreement

London. — Reuter's learns that a Rumanian steamship has left Liverpool for Montreal to load goods supplied by Canada to Rumania under the recently signed agreement.

Mr. Lloyd Harris, chairman of the Canadian trade mission, has left Paris, where he intends to investigate Belgian requirements with a view to ascertaining what Canada would be able to supply and thus help in the work of restoration.

Canada will be represented at a large exhibition of British manufactures which is to be held at Athens this autumn.

## Relief Force for Russia

London. — News from North Russia is that the situation in the Archangel area has been considerably improved by reconnaissance against the Bolsheviks. The announcement that a relief force will shortly proceed to the front has had a marked effect on the spirits of the allied troops.

The most critical period, however, has not yet been reached, but it is believed that if the relief force is dispatched as soon as open water is available, the needed relief will be successfully accomplished.

Meanwhile recruiting for the relief force is proceeding throughout Great Britain.

## Flu Holds Up Shipping

Melbourne. — The Commonwealth government has decided to prohibit the movement of all shipping from Australia ports in consequence of the severity of the influenza epidemic in Australia and New Zealand.

Playing with loaded dice is shaky business.

## NEGLECTED COLDS

Lead to Consumption

Unless a complete cure is effected the inflammation passes rapidly to the throat bronchial tubes, and then to the lungs.

You can't make new lungs any more than you can make new fingers or a new nose—hence consumption is practically incurable.

But Catarrh can be cured, even in its final and always fatal stages.

## Fearful of Unjust Peace

German Press Denounces Conditions of Treaty

Berlin. — Semi-official French announcement of the conditions to be laid down in the treaty of peace are denounced by the German press.

Prince Lichnowsky, in an article in the Tagblatt, declares France "forgets that instead of leading to disarmament, an unjustly extorted peace will bring forth only fresh armaments, throwing into the shade all former armaments, because the mailed fist peace can be maintained only by the mailed fist."

Declaring that a peace of violence must be absolutely rejected, he concludes: "Nobody can recommend the war against us. Neither can we be starved out without the common enemy, communism and terrorism, throwing all mankind back into its primitive state."

"No German government can sign such terms," the Vorwarts declares. "The entire statement must themselves settle with the inhabitants of the Saar valley who are thoroughly German, and they may find that the sums proposed as indemnities cannot be extracted, even if the last sheet is taken from our beds."

Some men are so self-conscious that they are unable to distinguish between a cheer and a jeer.

### Obituary.

There comes to one and all at times the thought of those who have gone before and also the time when our call shall come and at no time more than when we are called upon to lay away one who has always been an active worker in some particular sphere, and when the people of Bow Island were called upon to perform that ceremony with the body of Mrs. Pearl Ross the thought of the hereafter comes more closely to us all, Mrs. Ross was only sick a short time; but when that dread disease the Flu caught her there was entertained but very little hope of her recovery as it was known generally that her heart had been giving her great concern and it could not withstand the ravages of that terrible destroyer, and on Wednesday the 9th of April she passed away at her father's home in town, Mrs. Ross was born in Mower County, State of Minnesota, U. S. A. in the year 1883 on the 15th day of November, and was the daughter of Mr. and Mrs. J. K. Shearer of this place, she was educated in Minnesota and moved from there with her parents in the year 1902 to North Dakota where she taught school for 3 or 4 years and was married there in the year 1905 from which union there were three boys two of whom survive her. Earl age 13 and Elton age 11. Mrs. Ross came to Canada in 1908 and went through the usual hardships of pioneering and did homestead duties upon land, proving up on same, just North of Bow Island. At the age of 12 years she became a member of the Evangelical Church afterwards transferring to the Methodist and at the time of her death was an active member of the United Church where she had given all time possible to the upbuilding of the church. Mrs. Ross will be particularly missed by the Choir of this church as she had identified herself particularly with this branch and her time was often given when she had better remained at home, (as she never was a strong woman) but no murmur or complaint when this duty called her. Mrs. Ross leaves to mourn her loss her two sons, her Father and Mother, Mr. and Mrs. J. K. Shearer of Bow Island, one brother F. J. Shearer of Maple Creek, Sask. and two sisters, Mrs. James Munroe and Mrs. C. H. Bell both of Bow Island besides a host of true friends.
